Sometimes no amount of words will do a subject justice.

Abraham is a name. A symbol. A feeling. Evocative-yet simple-like we want our names to be.

But who, or what, is/are, Abraham . . . really?

Louise Hay calls them "some of the best teachers on the planet today." To Dr. Wayne Dyer they are "the great Masters of the Universe!"

A veritable who's-who of authors, speakers and teachers continue to publicly acknowledge and praise the immense value of the wisdom that is pouring forth from Abraham through Esther Hicks.

Abraham has described themselves as "a group consciousness from the non-physical dimension". They have also said, "We are that which you are. You are the leading edge of that which we are. We are that which is at the heart of all religions."

Abraham has told us through Esther that whenever we feel moments of great love, exhilaration, pure joy, stoned-out bliss, even the energy of sexual orgasm when we feel that Energy Flow rushing through our bodies, that is the energy of Source, and that is who Abraham "is".

Esther herself calls Abraham "infinite intelligence," and to Jerry, her husband, they are "the purest form of love I've ever experienced."

We say check out Abraham for yourself. It's the only way to go and the only way to know. If watching or listening or reading the words of Abraham feels good to you, then you're in the right place.
